Operating cash flow	$452K	$2.5M	-$2.0M	-81.9%	● Act now
Commercial DSO (days)	79 days	58 days	+21 days	+16 days	● Act now
Days inventory (DIO)	101 days	101 days	+0 days	+14 days	● Watch
Liquidity	$11.3M	$7.5M	+$3.8M	-30.1%	● On track
Top-5 customer share	58.1%	45.0%	+13.1 pts	-1.5 pts	● Act now

What went well

1. Services $4.6M (+20%) and e-commerce $12.0M (+18%) beat budget; simulator bays and fitting drive traffic.
2. Club margin 44.1% (+0.7 pts on last year): fitting sells premium heads. Ball price increase held.
3. Revenue per labor hour $191 (+5.7% on last year): the scheduling tool is paying off.

What is a problem

1. EBITDA $4.4M is $1.4M below budget: markdowns, freight, POS & ERP overrun, spring marketing.
2. Apparel over-bought: markdown rate 10.5% vs 7.8% budget; $779K aged 180+ days. DIO 101 days vs 87 last year.
3. Commercial revenue -8% vs budget; Lakeside Bay Corporate Events down $240K. Top 5 accounts = 58% of commercial.
4. Commercial DSO 79 days (budget 58); revolver $7.0M. Liquidity forecast low $7.1M in Mar 2027 vs $7.5M floor.

Actions to take

1. Clear aged apparel by January and cut the Q1 apparel buy 15%: frees about $1.1M of cash. Owner: Merchandising.
2. Collect $435K of past-due commercial receivables: weekly calls to the top 3 slow payers, credit hold at 90 days. Owner: Controller.
3. Hold Simulator Bays Phase 2 ($1.4M) and freeze POS & ERP scope until forecast liquidity is above $9M. Owner: CFO.
4. Fill open roles at Stores 07 and 11 (overtime 3.5% vs 2.3% budget); account plans for the top 10 accounts. Owners: Store Ops, Commercial.

Forecast at completion vs approved budget

Risks & Early Warnings

YTD: Jan 1 – Oct 31, 2026 · vs budget, LY
Actuals through Oct 31, 2026 · forecast to Dec 2027

Month | QTD | YTD | Last 12M

Risk heat map: impact x likelihood

Likelihood comes from each risk's indicator today

Impact	Rare	Unlikely	Possible	Likely	Certain
5 Severe				R1	
4 Major		R5	R4		
3 Moderate				R3	R2 R7
2 Minor		R6		R8	
1 Low					

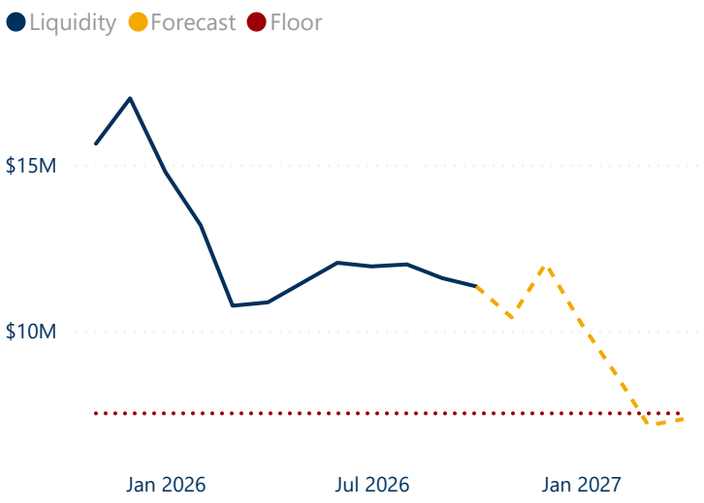

Risk register and early warnings

Status turns red at the threshold. Each response is an action with an owner.

ID	Risk	Owner	Indicator	Now	Threshold	Status	Response
R1	Liquidity squeeze in the 2027 pre-season build	CFO	Lowest forecast liquidity, next 6 months	$7.1M	Red below $7.5M	Act now	Cut Q1 apparel buys, collect overdue AR, hold Phase 2 bays
R2	Commercial customer concentration	VP Commercial	Top-5 share of commercial revenue	58.1%	Red above 45.0%	Act now	Account plans for the top 10; add 8 new clubs
R3	Slow-paying commercial accounts	Controller	Commercial DSO (days)	79 days	Red above 70 days	Act now	Weekly collections calls; credit hold at 90 days
R4	Aged apparel inventory	Merchandising	Inventory aged 180+ days, % of total	13.4%	Red above 14.0%	Watch	Clearance event and vendor returns
R5	Markdowns eroding gross margin	Merchandising	Markdown rate, % of gross sales	6.4%	Red above 8.0%	On track	Smaller, later apparel buys; markdown cadence
R6	Overtime and staffing gaps in stores	Store Ops	Store overtime, % of hours	3.5%	Red above 6.0%	On track	Fill open roles at Stores 07 and 11
R7	POS & ERP project overrun	CIO	Forecast cost over approved budget	+33%	Red above 15%	Act now	Freeze scope; phase 2 needs a new business case
R8	E-commerce freight cost inflation	VP E-commerce	Freight, % of e-commerce revenue	10.4%	Red above 10.0%	Act now	Re-bid carriers; free-shipping threshold to $99

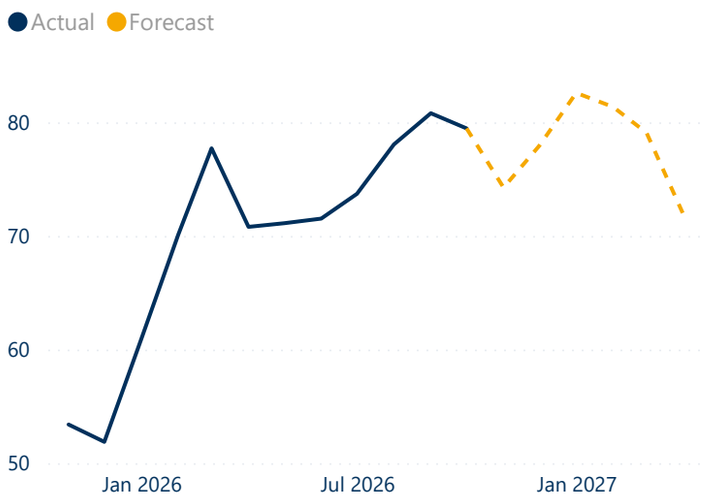

R1 Liquidity vs the $7.5M floor

Next 6 months are the watch window

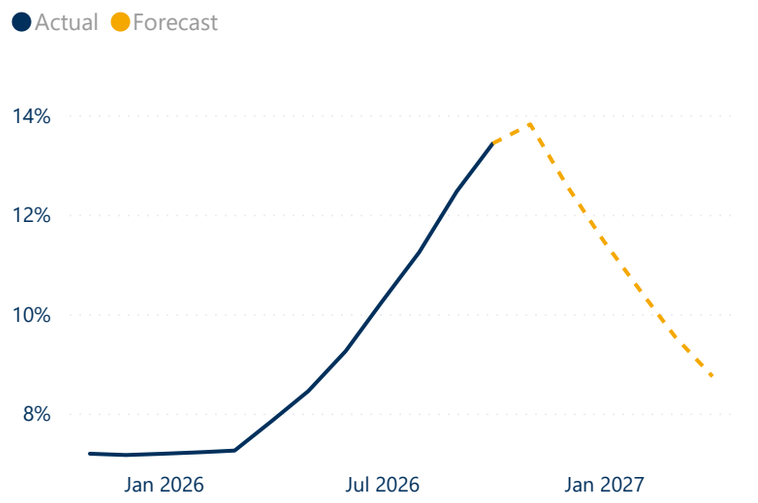

R3 Commercial DSO (days)

Red above 70 days

R4 Inventory aged 180+ days

Red above 14% of inventory

About this Report

How to read this report

Start on the Executive Summary: four headline KPIs, the scorecard (on track, watch, act now), and what went well, what is a problem and the actions to take. Every number in those statements is calculated from the data.

Period buttons (Month, QTD, YTD, Last 12M) set the window for every page. Each window ends with the last month of actuals (Oct 31, 2026). Balances (cash, receivables, inventory, DSO, DIO) are at that month end.

Comparisons: actual vs budget for the same window, and vs the same months last year. Full-year outlook = actual to date plus the rolling forecast for the rest of the year. Forecast runs to Dec 2027.

Colors: green is better than target, amber is just behind (watch), red needs action. On trend charts navy is actual, gold dashed is forecast, grey dashed is budget.

Pages: Trends & Forecast, Income Statement, Revenue & Margin Drivers, Customers & Products, Labor & Stores, Working Capital & Balance Sheet, Cash Flow & Liquidity, Capital Projects, Risks & Early Warnings.

Definitions and data

EBITDA = gross margin less operating expenses (labor, occupancy, marketing, technology and admin). Gross margin = net revenue less product cost, freight, shrink and obsolescence, and service delivery cost.

Commercial DSO = commercial receivables / last 3 months of commercial sales x 91. DIO = inventory / last 3 months of product cost x 91. DPO = payables / last 3 months of cost of sales x 91.

Liquidity = cash + undrawn revolver ($15M line). The lenders require at least $7.5M. Revenue bridge: volume at the budget average price, mix across product lines, price, and markdowns beyond the budgeted rate.

All data is fictional: Foster Golf Co, 12 stores, e-commerce and 40 commercial accounts, Jan 2023 to Oct 2026 actuals, FY2024-26 budgets and a forecast to Dec 2027. Built with the Foster BI Toolkit: Sample Data Maker engine, Date Table Generator, Theme Builder, Layout Designer, KPI Visualizer, Chart Patterns, Field Parameter Builder, RLS Role Generator, Power Query Writer and Measure Describer; checked with the Model Linter and documented with the Model Documenter.
